** all collections include a engagement session, an online gallery to share with family & friends

A bride and groom are walking away from the camera on a dirt path through a dense forest. The bride is on the left, wearing a white wedding dress and a long veil, carrying a bouquet of flowers. The groom is on the right, wearing a dark suit. The path is surrounded by tall trees and green foliage, with some fallen leaves on the ground.

dKol wants to create a custom day for you and your partner. The collections are meant to be guidelines for establishing the perfect timeline for your celebration. After we talk through your aspirations for the day we will make adaptations to your collection.

Most weddings will include a second shooter, the use of a personal online gallery that showcases all details of your love story, including your engagement session, and guidance in creating the dream of a lifetime.

dKol looks forward to the opportunity to celebrating with you.
